

“ We are pleased that Medite Tricoya is fit for purpose, we use this extreme durable MDF as part of the design of our garden buildings. Particular consideration is always undertaken when choosing the panel type, with the benefits of this new MDF we are able to design garden buildings and summerhouses with timeless beauty and longevity. ”

Owner Barry Harper
HSP Garden Buildings

Premium outdoor garden buildings

The scenario: HSP Garden Buildings design, manufacture and install a comprehensive collection of outdoor structures that range from Arbours and Gazebos through to magnificent Summerhouses and bespoke structures. HSP Garden Buildings are current users of standard MDF and were very keen to use Medite Tricoya.

The solution: Medite Tricoya offers the design freedom of standard MDF with the confidence of quality outdoor performance. HSP garden buildings now have a panel product that is stable, durable and reliable along with an industry leading 50 year guarantee.

The result: Medite Tricoya was used for fascias, backboards and elegant decorative panels on this premium garden building which was featured at the RHS Chelsea Flower Show, in the UK.
