

RHS Chelsea flower Show Benches

The scenario: Based on an original design from the 1900's the Newport Storage Bench brings the design into the 21st century, combining the traditional style with practicability and convenience with long term performance.

The solution: Made from Medite® Tricoya® Extreme Durable MDF, the storage box at the bottom of the bench is water tight with a solid wood seat and is ideal for putting away a croquet set, tennis, swimming equipment or cushions.

The result: This handsome bench was showcased at the 2012 RHS Chelsea Flower show.

“ We have been using Accoya® wood for a number of years it was good to hear that Medite Tricoya had reached the market, this unique, versatile, extreme durable product has enabled us to combine both Accoya wood and Medite Tricoya in our range of products. We have the guarantee of 50 years for rot and decay and many other performance benefits and this replaces the uncertainty of uncertified unsustainable hardwoods. ”
